Natural Disasters Reading Comprehension

A natural disaster takes place in populated areas of the world when lives may be lost, the property is severely damaged, and the economy is negatively affected. Natural disasters may include an asteroid collision with Earth, avalanche, landslide, blizzard, thunderstorm, earthquake, flood, gamma-ray burst (from space), volcano, heat wave, hurricane, solar flare, drought, tornado, tsunami, hail, and wildfire. It is not a natural disaster if it occurs in an unpopulated area and there is no loss ...
